Description of Reasonably Foreseeable Impact of the Planned Changes:

After retirement of the copper facilities, CBT will
(1) no longer offer services over the copper facilities; and
(2) cease maintaining copper facilities.

All services previously provisioned over copper facilities to affected customers will continue over fiber facilities.

There are no interconnected telephone exchange providers affected by the retirement of the copper at the addresses below. All new requests by interconnected telephone exchange providers will be installed with fiber facilities with this change.

There are approximately 7 CBT customers in the addresses affected by this copper retirement. CBT is actively working to move these customers to fiber facilities but has a hard shutdown date of October 23, 2024. Every effort will be made to convert customers by October 23, 2024.

Description of any changes in prices, terms, or conditions that will accompany the planned change(s):
